

InterpreTUFF is great fit for most outdoor (or indoor) interpretive signage needs. This product offers a high quality, full color image on a rigid, yet lightweight polymetal board perfect for a variety of uses. These signs can be framed for added protection or manufactured with predrilled holes for easy mounting on wooden posts.

DISPLAY OPTIONS

Exhibit Base/Frame

We encourage the use of a frame system for displaying InterpreTUFF signs. This helps provide additional protection and support for the sign.

We offer heavy gauge, powder coated aluminum frame system with a variety of options to fit the needs of your signs and budget.

InterpreTUFF has a 5-year outdoor warranty when displayed using an approved framing system. Other limitations apply. See full warranty on our website.

Unframed Signs

For smaller InterpreTUFF signs, or signs not being framed, we offer additional finishing options, such as predrilled holes and rounded corners.

Finishing Option Standard Measurements:

Holes:

- 3/16 inch diameter
- 1 inch in from sign edge
- Located in each corner or centered on the top and bottom of sign

Rounded Corners:

- 3/8 inch radius
