

EcoSaver is perfect for temporary signs or when working with a tight budget. EcoSaver signs feature a full color image printed directly onto a metal substrate — eliminating steps in the production process common with our other signs, allowing us to turn the time savings into money savings for you.

SIGN OPTIONS

Substrate Production Requirements

This product is manufactured by printing directly onto a full 4'x8' 3mm polymetal board. EcoSaver must be ordered in sizes and/or quantities that utilize the full board to get the most economical prices.

A full sheet yields:

- | | | | |
|-----------------|---------|-----------------|--------|
| • Size: 12"x18" | Qty: 20 | • Size: 24"x36" | Qty: 5 |
| • Size: 18"x24" | Qty: 10 | • Size: 36"x48" | Qty: 2 |

Finishing Options

We offer finishing options, such as predrilled holes and rounded corners, to make your signs easier to post and have a professional finished look.

Finishing Option Standards Measurements:

Holes:

- 3/16 inch diameter
- 1 inch in from sign edge
- Located in each corner or centered on the top and bottom of sign

Rounded Corners:

- 3/8 or 1/2 inch radius
